绑完线，把图示两根零件拆掉，
一并拆掉的还有4个插销。
After tying the wires, remove the
two parts shown in the diagram,
There are also four pins removed
together.

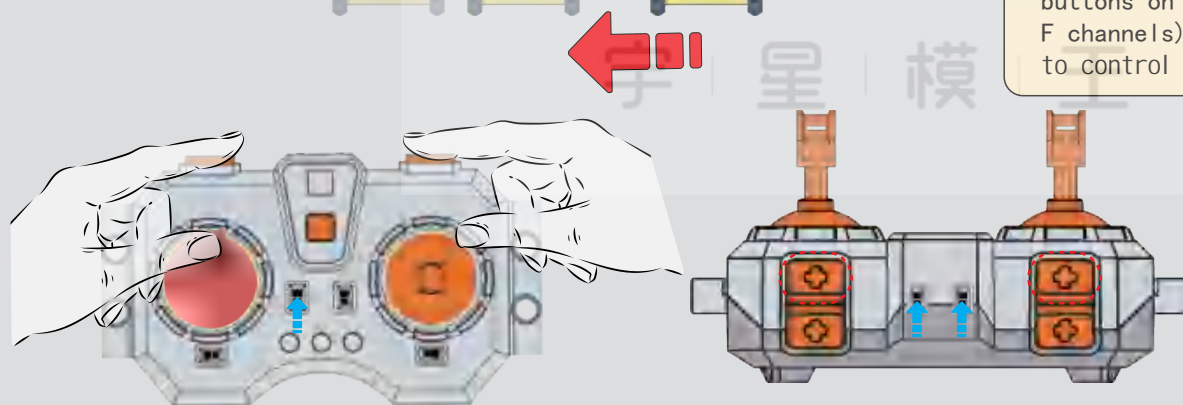

531

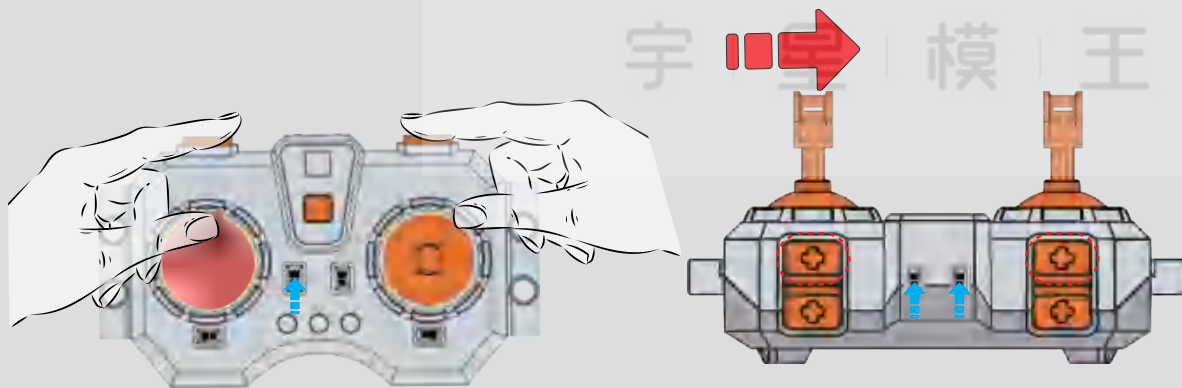

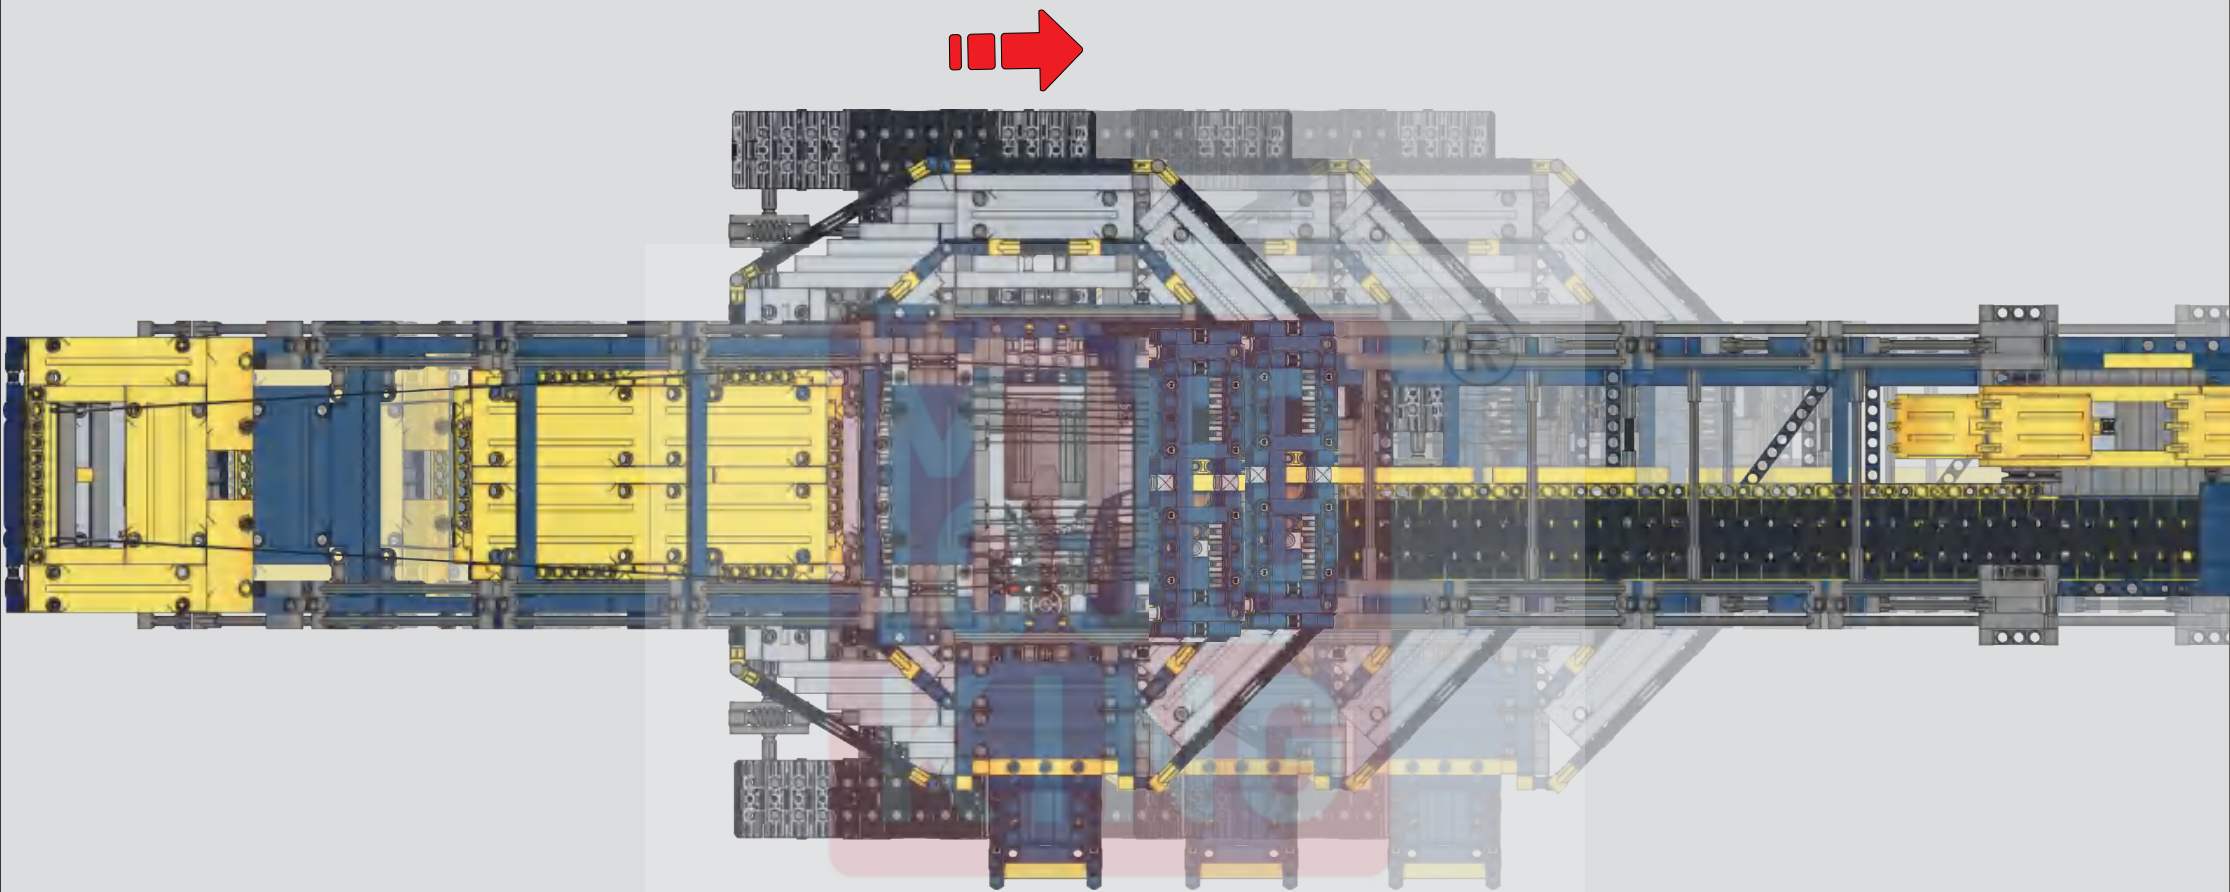

将遥控器左摇杆↑移（A通道）并同时按动遥控器前端的左右两个上方的按键（E、F通道），两边履带同一方向转动，控制车辆前进

Move the left joystick on the remote control upwards (A channel) and at the same time press the two upper buttons on the front end of the remote control (E and F channels). Both tracks will move in the same direction to control the vehicle moving forward.

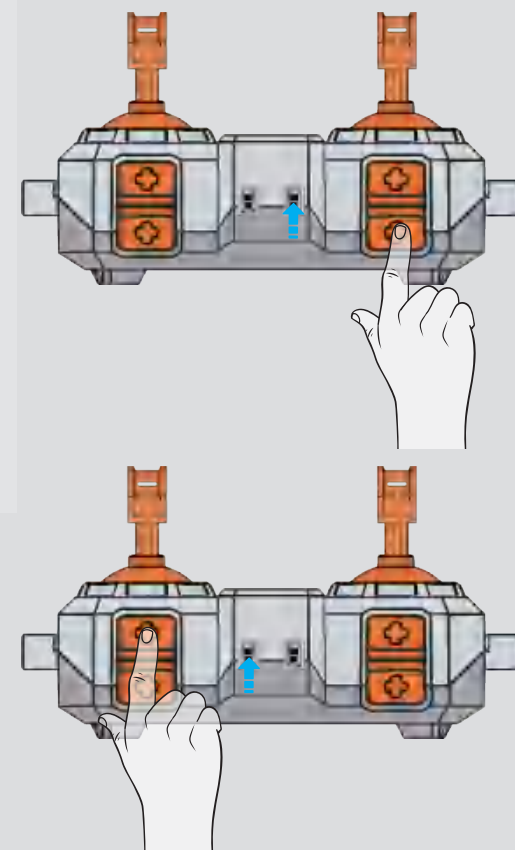

将遥控器左摇杆↓移（A通道）并同时按动遥控器前端的左右两个下方的按键（E、F通道），两边履带同一方向转动，控制车辆后退

Move the left joystick on the remote control downwards (A channel) and at the same time press the two lower buttons on the front end of the remote control (E and F channels). Both tracks will move in the same direction to control the vehicle moving backward.

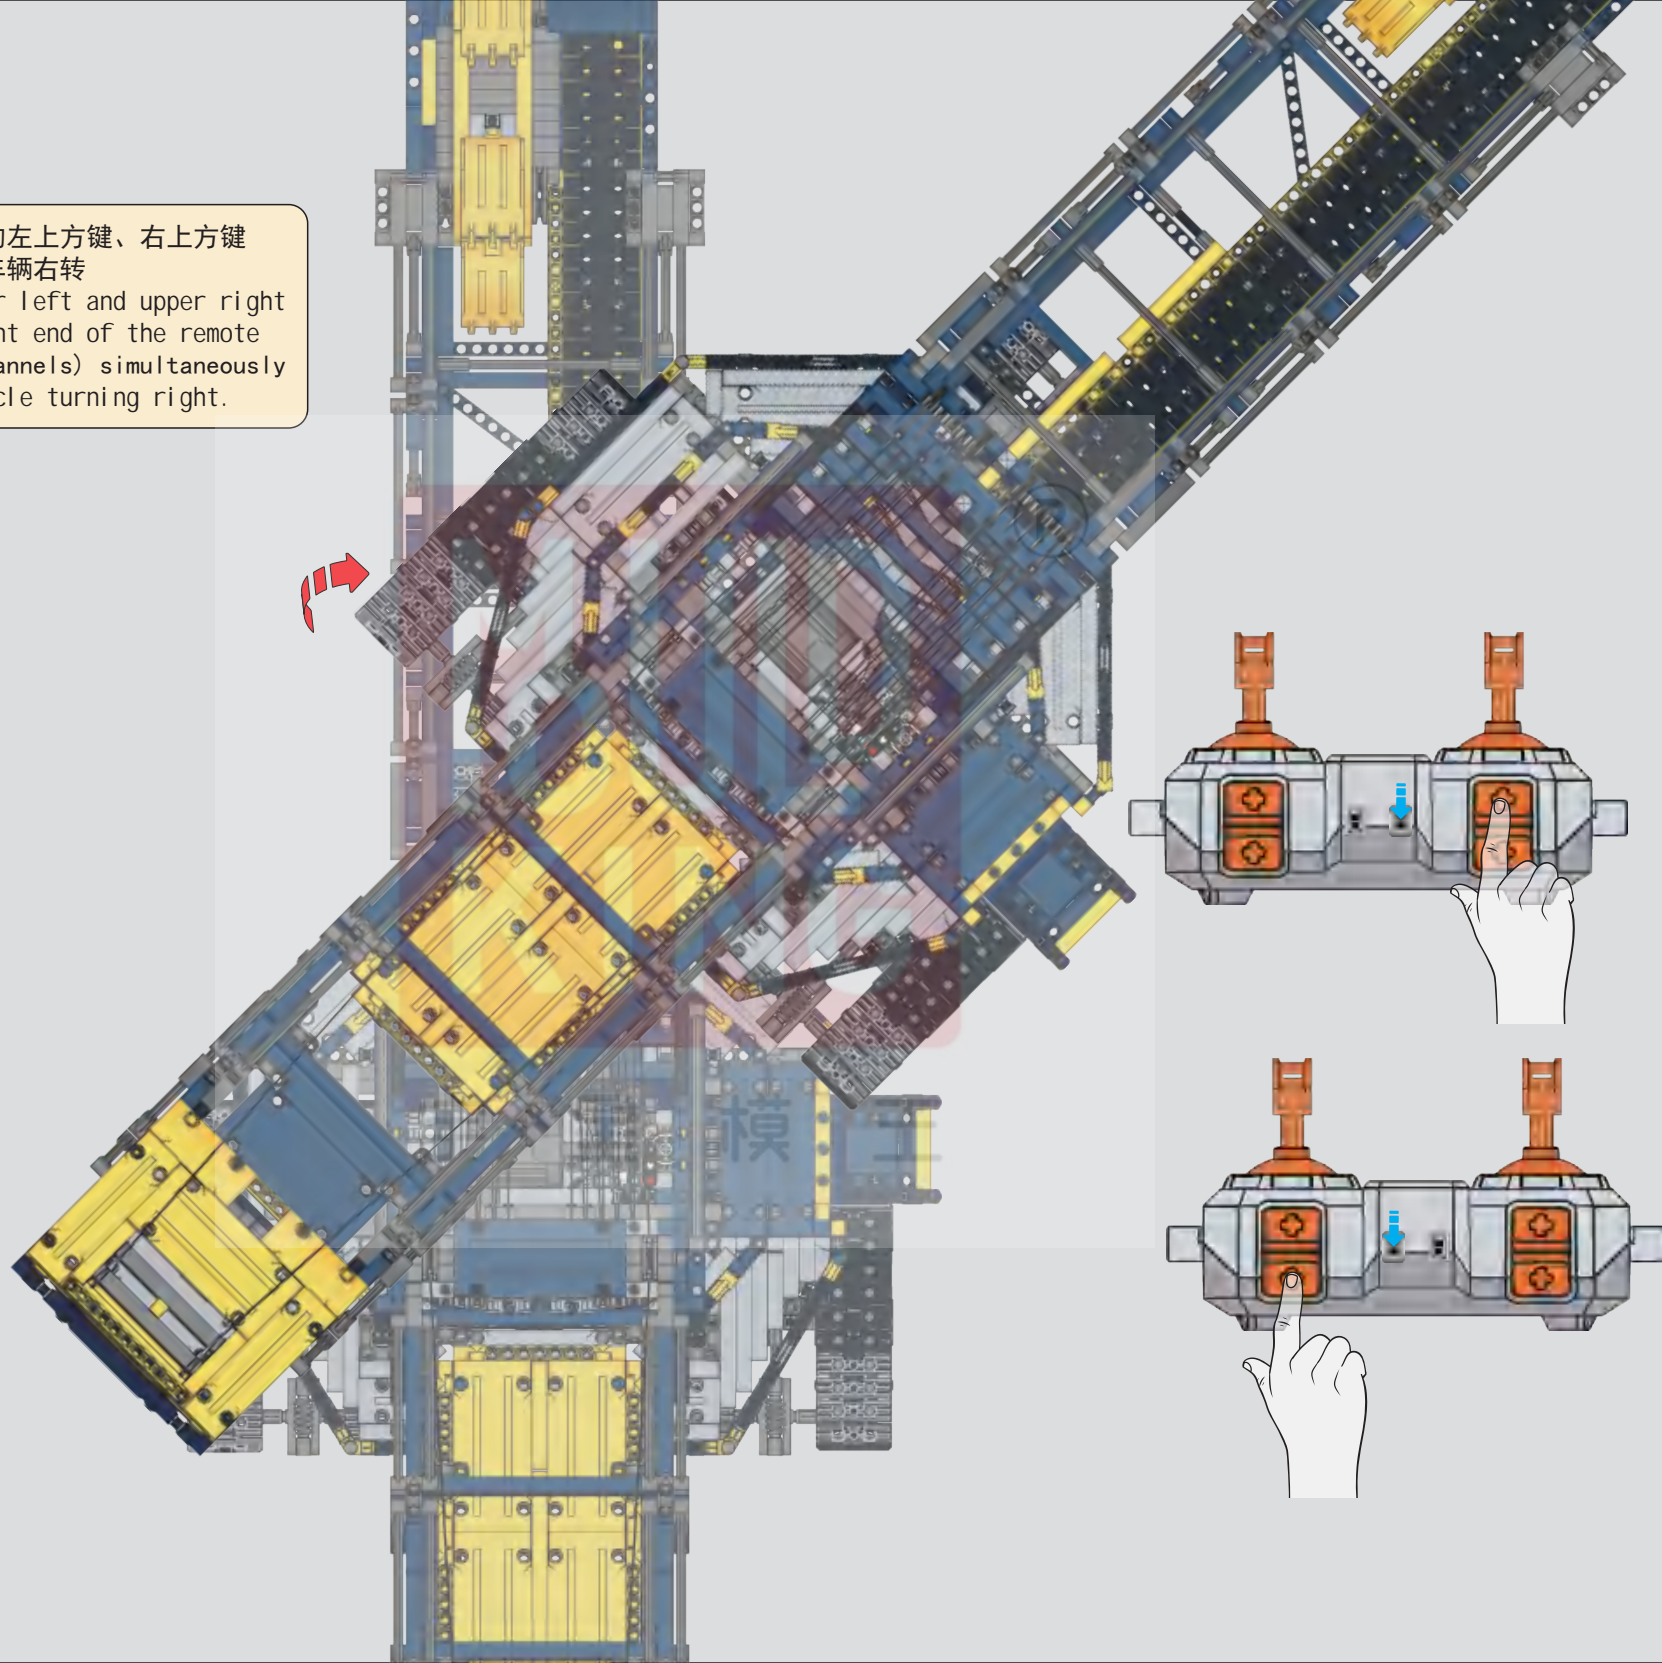

534

同时按动遥控器前端的右上方键、左上方键（E、F通道），控制车辆左转
Press both the upper right and upper left buttons on the front end of the remote control (E and F channels) simultaneously to control the vehicle turning left.

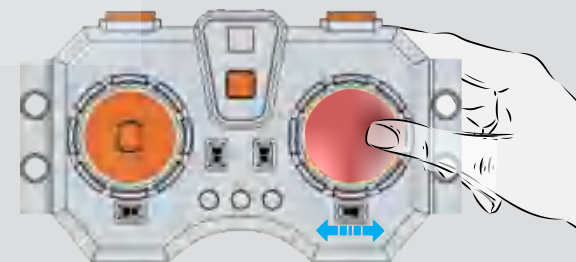

535

同时按动遥控器前端的左上方键、右上方键
(E、F通道)，控制车辆右转
Press both the upper left and upper right
buttons on the front end of the remote
control (E and F channels) simultaneously
to control the vehicle turning right.

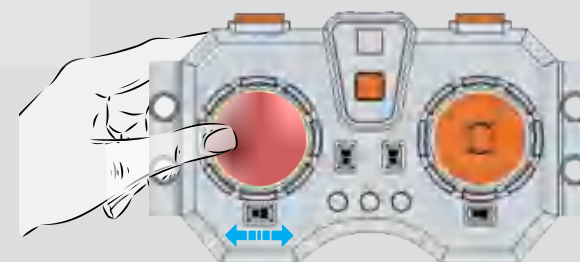

将遥控器右摇杆←→移动 (D通道),
控制上部结构旋转
Move the right joystick on the remote
control to the left or right (D channel)
to control the rotation of the upper
structure.

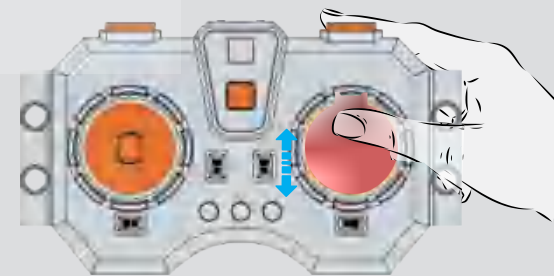

将遥控器左摇杆 \leftrightarrow 移动 (B通道),
控制斗轮旋转
Move the left joystick on the
remote control to the left or
right (B channel) to control the
rotation of the bucket wheel.

将遥控器右摇杆↑↓移动（C通道），
控制挖臂升降
Move the right joystick on the
